1008 Trimer Acid

Description: Vannu® 1008 Trimer Acid is a mixture of separating matter at the process of dimer acid made from the plant oleic acid, and it's black thick fluid, nontoxic, no irritation, it can be used in producing synthesis of amilan, rust inhibition of oil filed, etc.

Properities	Specification	Typical Quality
Appearance, 25°C	Black thick fluid	OK
Saponification value	192-198mgKOH/g	195mgKOH/g
Colour, gardner	≥18	20
Acidity	190-195mgKOH/g	193mgKOH/g
Viscosity, 25°C	≥30000mPa.s	33000mPa.s
Monomer, HPLC	≤6%	4%
Dimer, HPLC	8-36%	20%
Trimer, HPLC	55-88%	75%
Package&Storage	In unopened, original containers, 12 months at 2 - 25°C, (see expiry date on original package) 190KG iron drum, etc.	
HS code	2917209090	
Health&Safety	Please refer to Material Safety Data Sheet
