

PRODUCTION DATA SHEET

95

Wood Sterol

Description: Vannu®95 Wood Sterol with high sterol purity, is from wood pulp derived through physical purification, with high nutritional value, physical activity and other characteristics. Wood sterol can lower cholesterol for reducing the risk of cardiovascular disease.

Properties	Specification	Typical Quality
Appearance	White uniform particle	OK
Taste	Mild and special odor	OK
Heavy metal (Pb)	≤10ppm	3ppm
Acidity	≤2mgKOH/g	0.33mgKOH/g
Loss On Drying	≤2%	0.4%
Ash Total	≤0.3%	0.1%
Moisture	≤1%	0.18%
Total Content	≥ 95%	97.4%
β-sitosterol	≥ 65%	77.2%
Stigmasterol	≥ 10%	11.1%
Campesterol	≥ 6%	6.6%
Brassicosterol	≤2%	0.7%
Other sterol	≤3%	1.8%
Package&Storage	In unopened, original containers, 18 months at 2 - 25°C, (see expiry date on original package) 25kg paper drum with lope film bag, 450kg fiber bag, etc.	
HS code	2906199090	
Health&Safety	Please refer to Material Safety Data Sheet
